

# EZEOMA RAPHAEL

Full-Stack .NET Developer  
**Backend-Focused**

## PROFESSIONAL SUMMARY

Passionate Full-Stack .NET Developer with 4+ years of hands-on experience using ASP.NET Core, Entity Framework, and modern backend architectures. Proven leadership as Team Lead on CivicLink – a real-time civic complaint platform built entirely on ASP.NET Core Web API with SignalR, role-based authentication, and complex relational database design. Strong focus on clean architecture, performance optimization, and scalable backend solutions.

## EXPERIENCE

### Full-Stack .NET Developer

Jan 2022 - Present

- Designed and developed multiple production web applications using ASP.NET Core MVC and Web API.
- Integrated secure payment gateways into an interdenominational management platform
- Implemented AJAX-driven dynamic UIs, modal forms, and seamless data fetching across projects.
- Built and maintained HR management system (BiviHR), appointment booking platforms (Garage & FLT), and e-commerce solution (BeezNest).
- Applied Dependency Injection, Repository Pattern, and Clean Architecture principles in backend services.
- Mentored junior developers and conducted code reviews as acting Team Lead on API-first projects.
